OPEN CALL FOR: 1 RESEARCH SUPPORT STAFF

CINBIO is a multidisciplinary research centre with more than 200 members of staff: professors, lecturers, PhD candidates, and lab technicians. A commitment of the University of Vigo to develop the biomedical and biotechnological field with a differentiating element with respect to other centers with similar characteristics: its multidisciplinary nature.

Top level researchers in disciplines as varied as medicine, biology, chemistry, physics, mathematics and information technology are clustered in our nineteen research groups. We work around four major areas related to biomedicine and biotechnology.

- Molecular medicine focus on research about the molecular foundations of diverse conditions (including rare diseases), immune response, and neuroscience. Our aim is to develop diagnostic and treatment methods and/or identify mechanisms to activate or deactivate diseases
- Nutrition and well-being research related to nutrition and health sustainability; the microbiome (with the acquisition of antioxidants and the development of prebiotics), bacteria, and therapeutic agents;
- Nanomaterials area researches on nanoscale materials revolves around nanocatalysis, biosensors, nanophotonics, nanomagnetism and nanovaccines
- Biostatistics and health informatics: data are analysed to make predictive models and their subsequent inference in the field of biomedicine, as well as the use of software for processing this data.

The main mission of CINBIO is both the creation and the transfer of knowledge and innovation in the biomedical and biotechnological field, in a collaborative and multidisciplinary way. CINBIO aims to arouse the interest of our researchers to amplify their field of research. In order to look for synergies among our groups and the different areas involved in CINBIO, we have created an intramural research program “COLABORATIVE PROJECTS” to perform small projects which will allow researchers to validate some draft ideas cooperating with other areas of expertise. This program is a new initiative, which has born in 2021 in line with the centre's strategy to strengthen our multidisciplinary nature. CINBIO will support this program through the acquisition of consumables and contracting technical staff to help in the development of the project.

These contracts will be financed thanks to grant obtained by RESOLUTION of 13 December 2019 in accordance to the Order of 19 September 2019 establishing the regulatory bases of the competitive call for the accreditation, structuring and improvement of research centers of the Galician University System, 80% co-financed by the European Regional Development Fund (ERDF), within the framework of the Feder Galicia 2014-2020 operational program.

CINBIO follows the University of Vigo's strategy of HR Excellence in Research, and HRS4R - Human Resources Strategy for Researchers, to guarantee the transparency, and ensuring the equal treatment of all applicants. All vacancies are openly advertised.

CINBIO offers 1 positions for RESEARCH SUPPORT STAFF.

Please, send the required documentation to cinbio@uvigo.es, indicating the **Reference number** in the subject.

CONDITIONS FOR APPLICATIONS

1. SUBJECT

The subject of this call is to establish the selection procedure for contracting technical support staff according to the terms and requirement established in ANNEX I.

2. CANDIDATE REQUIREMENTS

Requirements are established in ANNEX I of this call.

3. APPLICATION PROCEDURE

Deadline for submission will be open for ten working days, after its publication in the website <https://cinbio.es/gl/category/emprego/>

Deadline: 05 April 2021 at 23.59 (Local time - CEST).

Applications can only be submitted electronically via email addressed to cinbio@uvigo.es. Candidates must submit and include in the email all documentation indicated in Annex I. It is compulsory to specify the reference of the position in the subject of the email, not being accepted those applications that do not comply with this formality. CINBIO will automatically reject these candidates.

Once the application period has ended, the provisional list of admitted and excluded will be published on the CINBIO website, opening a period of 10 working days after its publication to correct errors or provide the relevant documents. If all applicants are admitted, this process will be considered completed. After this period, the final resolution of admitted and excluded will be published.

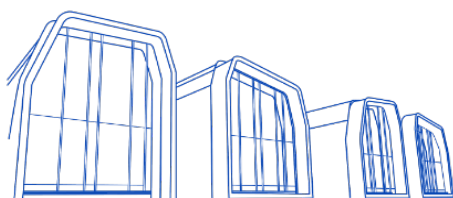

4. SUPPORTING DOCUMENTATION

Applicant must submit the **application form ANNEX II** (filename: CINBIO_Reference_YourName_Form.pdf) accompanied by the following documentation:

- Curriculum Vitae (filename CINBIO21/002_YourName_CV.pdf).
- Copy of the required Academic qualification (filename C CINBIO21/002_YourName_Degree.pdf).
- Motivation letter (1 page, (filename CINBIO21/002_YourName_letter.pdf).

The submission of the application implies the knowledge and acceptance of all the conditions indicated in this call.

5. SELECTION PROCEDURE

Applications will be evaluated by a specific committee composed by at least three members. The Selection Committee shall evaluate all the applications taking into consideration the specifications of each project and the eligible criteria established.

Composition of this committee and the valuation criteria are included in ANNEX I of this call.

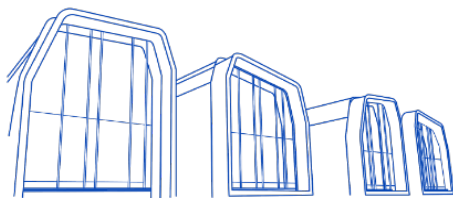

Additional info can be requested during the selection procedure.

The commission will select candidates that can be invited for a **face-to-face or remote interview**. A contract will be offered to the selected final candidate; the others will end up on a waiting list.

All qualified applications will be considered, and not discriminated against on the grounds of race, colour, religion, sex, sexual orientation, gender identity, nationality, age or disability.

6. CONTRACT SPECIFICATIONS

Fixed term contract. The gross salary is up to 1500 €/month, depending on experience. This includes salary and employee social costs, before taxes and compulsory social and security contributions.

POSITION 2. RESEARCH SUPPORT STAFF – REF. CINBIO21/002
