

**OPEN CALL FOR THIS POSITON: COMMUNICATIONS MANAGER.
CINBIO, Biomedical Research Center (*Centro Singular de Investigación de Galicia*),
UNIVERSITY OF VIGO**

The **Biomedical Research Center** (CINBIO, *Centro de Investigacións Biomédicas, Centro Singular de Investigación de Galicia, University of Vigo*) (www.cinbio.es).

CINBIO aims at generating first class science; training in values of excellence and make returns to the society, under a multidisciplinary approach. It is working on basic, applied and clinical research, to address prevention, diagnosis and therapy in Biomedicine.

We are over 200 people, professors, consolidated and early stage researchers, PhD students and technicians. We provide and have access to core facility services with ISO 9001: 2015 quality certificate, including bioexperimentation facilities and BSL3 lab.

We are opening a new strategic roadmap with four main strategic areas: Molecular medicine / Nutrition and Wellness / Nanomaterials / Bio-statistics and Health informatics and intelligent systems. There are 14 research leaders in the areas of Applied Physics / Biomass and Sustainable Development / Analytical & Food Chemistry –Biotoxins- / Colloid Chemistry and Nanophotonics / Magnetic Materials / Nanocatalysis and biosensors / Organic Chemistry / Neuroscience / Endocrinology / Rare Diseases/ Immunology / Evolutionary and Biomedical Genomics / Next Generation Computer Systems / Biostatistics and Epidemiology.

Along the last 4 years, we got hold of over 12 million euros, almost a third in international calls; 65 theses; over 100 articles yearly, 75% of them Q1, 40% first decile, some of them highly cited; transfer output of 4 patents, 27 software records and contracts with industry; being proactive in career development actions. We are now implementing actions to increase funding, especially at international calls and from new sources; in order to improve excellence, outreach, internationalization, and returns to society.

CINBIO follows the University of Vigo's strategy of HR Excellence in Research, and HRS4R - Human Resources Strategy for Researchers, to guarantee the transparency, and ensuring the equal treatment of all applicants. All vacancies are openly advertised.
